

# **THE NIAGARA REGIONAL SCIENCE AND ENGINEERING FAIR - 2008**

Please read through the booklet on the web site, and share its contents with your prospective Science Fair participants. Rules set forth are established on a need for safety and common sense. If there is a doubt about the meaning of any regulation, you are urged to contact me for clarification. Remember, failure to comply with the rules may result in a rejection of a project application - a sad situation that can be avoided.

Secondary students are reminded that in order to be eligible for selection to participate in the Canada Wide Science Fair, they must complete specific documents in advance of beginning certain types of studies. In addition, all students should realize that their display boards must meet the requirements for fire regulations for the Canada Wide Science Fair.
